Security Installations

Required security software for TAU workstations and servers.

NAC — Forescout

Network Access Control client required for connecting to the TAU network.

ForeScoutSecureConnector_64_visible_daemon.tar.gz

Installation

```
tar -zxvf ForeScoutSecureConnector_64_visible_daemon.tar.gz
cd secure_connector
./install.sh
systemctl start SecureConnector.service
```

EDR — CrowdStrike Falcon

Endpoint Detection and Response client.

- falcon-sensor_7.18.0-17106_amd64.deb — Ubuntu 22.04 / 24.04
- falcon-sensor_7.39.0-19203_amd64.deb — Ubuntu 24.04
- falcon-sensor-7.17.0-17005.el9.x86_64.rpm — Rocky / RHEL

Installation — Ubuntu

```
dpkg -i falcon-sensor_7.18.0-17106_amd64.deb
systemctl restart falcon-sensor.service
```

Installation — Rocky / RHEL

```
rpm -ivh falcon-sensor_7.17.0-17005.el9.x86_64.rpm
systemctl restart falcon-sensor.service
```

Registration (new installations only)

```
/opt/CrowdStrike/falconctl -s --cid=<cid-code>
```

To obtain the CID code, contact infosec@tauex.tau.ac.il.
